

INTRODUCTION

The DJI Mini 2 SE is a compact and user-friendly camera drone designed for beginners and casual users. Weighing just under 249 grams, it is lightweight and portable, and often exempt from drone registration in many countries. Despite its small size, it features a 12MP camera capable of shooting 2.7K Quad HD video, delivering clear and stable aerial footage.

Equipped with GPS positioning, Return to Home (RTH), and OcuSync 2.0 transmission technology, the Mini 2 SE offers reliable flight performance with a video transmission range of up to 10 km. It also supports up to 31 minutes of flight time, allowing for extended creative sessions. With intuitive features like QuickShots for automated video capture, it's an excellent choice for those looking to get into aerial photography and videography with minimal setup.
